LAWN MIXTURE

Highland Brand—extra good.....\$24.00

Prevent disease with "DUBAY" seed disinfectants. Use new, improved Ceresan for seed grain—2% Ceresan for peas and narcissus—Semesan Bel for potatoes—Semesan Jr. for corn—Semesan for vegetables and flowers, and Thiosan for golf and lawn turfs. Order early as there is no certainty of sufficient supply.

Some seeds, such as alfalfa of northern origins, are very scarce. The wise buyer will secure his supplies early.

FERTILIZERS AND SOIL BUILDERS

After our limited supply of Soil-Aid and Garden-Aid is exhausted, we will be unable to get materials to manufacture for the duration. We will, however, have in stock "MILORGANITE", an organic soil amendment —better in many respects than other fertilizers. Does not burn—ask about it.

TERMS—Net Cash—F.O.B. Salt Lake City, subject to market change and prior sale. Alfalfa and Clovers in 100-lb. bags processed to increase germination—no charge for bags or processing. All seed passes requirements of State and Federal Seed Laws.

ASK FOR SPECIAL DELIVERED PRICES ON QUANTITY LOTS

Occidental Seed Company gives no warranty, expressed or implied, as to the productiveness of any seeds we sell and will not be, in any way, responsible for the crop. Our liability, in all instances, is limited to the purchase price of the commodity.
